Draft Appendix A History and Detailed Activities under 2010 Five-Year Plan 09 24 2015.docx

All,

I am resending the draft plan as a pdf since the file size as a Word document exceeds many of you all's email file size capacity.

<<<<<<<<<>>>>>>>>>>

Dear Grants Mining District 5-Year Plan Partners,

Attached is the latest draft of the second 5-Year Plan for the Grants Mining District and the History and Detailed Activities under the 2010 Five-Year Plan write-up, as Appendix A.

Specifically, what the plan needs is for each Partner to **review** the **goal(s)** that are included in the plan that can be initiated/accomplished/contemplated within your agency's purview during the next 5 years and the **specific actions** to meet the a goal(s) articulated. Additionally, make sure Appendix A accurately reflects the work accomplished by your agency under the first 5-Year Plan.

Please provide me with the aforementioned by <u>COB Monday, October 5, 2015</u>. I will set a conference call for Tuesday, October 6th to discuss comments received. Be on the lookout for a calendar invite from me shortly.

We have our community meeting (rescheduled from August) scheduled for Tuesday, October 27th at the Cibola County Building in Grants. I would like to get the revised draft plan out electronically to the public no later than October 8th for their input by November 13th. I will have paper copies available at the community meeting for those that did not receive.

I apologize for the time it has taken to share this latest draft. Some of the circumstances were beyond our control. Also, the formatting is still pretty rough and will look much better in the version released to the public for their input.

Your participation in the development of the second 5-Year Plan is greatly appreciated!

Lisa Marie Price US EPA Region 6 Grants Mining District Coordinator 214 665 6744
